

SCHOOL OF PUBLIC POLICY

PROGRAM FOR PUBLIC CONSULTATION

DEMAND FOR PUBLIC CONSULTATION

- STATE OF MICHIGAN, CD4, CD7, CD8, CD10 and NATIONAL -

Field Dates:

Michigan CD4, Michigan CD7, Michigan CD8, Michigan CD10: May 27 – June 25, 2026

National: February 11-26, 2026

Sample Sizes:

State of Michigan: 600

Michigan CD4: 461

Michigan CD7: 469

Michigan CD8: 451

Michigan CD10: 494

National: 2,509

Confidence Interval:

State of Michigan +/-4.2%

Michigan CD4 +/-6.7%

Michigan CD7 +/-6.4%

Michigan CD8 +/-7.2%

Michigan CD10: +/-6.4%

National: +/- 2.9%

Samples Provided by: Multiple online opt-in panels, including Cint, Dynata and Prodege. Sample collection and quality control was managed by QuantifyAI under the direction of the University of Maryland's Program for Public Consultation.

Note: Rows may not add to 100% due to rounding

[Q1-43 previously released]

Q44. Imagine the Founders of the American republic were somehow able to observe how the US government is operating today. In your opinion, would the Founders think that the US government is fulfilling the vision they had:

	Very well	Somewhat well	Well	Not that well	Not well at all	Not well	Ref/DK

We will now show you a series of statements that your Congressional representatives (in the House or Senate) might make. We would like to know how you would respond to them. Here is the first one:

Q57. "I have confidence in the American people. Evidence shows that when Americans have the opportunity to think through important policy issues, this often reveals that Republicans and Democrats agree on many issues, even ones that Congress is polarized on."

If your Congressional representatives were to make that statement, would you see that as:

	Extremely positive	Very positive	Somewhat positive	Lean positive	Total positive	Lean negative	Somewhat negative	Very negative	Extremely negative	Total negative	Ref/DK

Q58. Here is the next statement in the series:

“As your representative, I will pay close attention when scientifically selected representative samples of the people I represent are consulted on issues before Congress—either through surveys or in-person meetings. I will respond thoughtfully to their conclusions and give them major consideration when I make decisions.”

Would your response be:

	Extremely positive	Very positive	Somewhat positive	Lean positive	Total positive	Lean negative	Somewhat negative	Very negative	Extremely negative	Total negative	Ref/DK

Methodology

Fielding and Sample Size: The surveys were fielded by the Program for Public Consultation (PPC) at the University of Maryland's Civic Innovation Center, with representative non-probability samples obtained from multiple online panels, including Cint, Dynata and Prodege.

National

Field Dates: February 11-26, 2026 Total Sample Size: 2509 Response Rate: 7.6%
Four-fifth Sample Sizes: 1991 to 2020

State of Michigan

Field Dates: May 27 – June 19, 2026 Sample Size: 600 Response Rate: 7.2%

Michigan CD4

Field Dates: May 27 – June 19, 2026 Sample Size: 461 Response Rate: 7.6%

Michigan CD7

Field Dates: May 27 – June 25, 2026 Sample Size: 469 Response Rate: 8.2%

Michigan CD8

Field Dates: May 27 – June 24, 2026 Sample Size: 451 Response Rate: 8.0%

Michigan CD10

Field Dates: May 27 – June 24, 2026 Sample Size: 494 Response Rate: 8.9%

Pre-Stratification and Weighting: The samples were pre-stratified and weighted by age, race, ethnicity, gender, educational attainment, household income, and home ownership. Benchmarks were obtained from the Census Bureau's 2024 and 2025 American Community Surveys, as well as the 2024 Current Population Survey's Annual Social and Economic Supplement.

The national sample was also weighted by Census region and partisan affiliation. In the Michigan samples, the distribution of partisan affiliation was within expectations, based on voter registration data for non-leaners and/or Cook's Partisan Voting Index for leaners.

National

Confidence Interval of Four-fifth Samples: +/-2.9% Min Weight: 0.25 Max Weight: 2.51 Mean Weight: 1.0

State of Michigan

Confidence Interval: +/-4.1% Min. Weight: 0.37 Max Weight: 1.92 Mean Weight: 1.0

Michigan CD4

Confidence Interval: +/-6.7% Min. Weight: 0.07 Max Weight: 6.00 Mean Weight: 1.0

Michigan CD7

Confidence Interval: +/-6.4% Min. Weight: 0.10 Max Weight: 6.00 Mean Weight: 1.0

Michigan CD8

Confidence Interval: +/-7.2% Min. Weight: 0.09 Max Weight: 6.50 Mean Weight: 1.0

Michigan CD10

Confidence Interval: +/-6.4% Min. Weight: 0.09 Max Weight: 6.50 Mean Weight: 1.0

Confidence Intervals were calculated using the sample variance of the weights using the following formula:

CI = Square root $((1+\text{variance})/\text{sample size})$

Sample Collection: Sample collection was managed by Quant-E with oversight from PPC. Samples were drawn from multiple large online panels, including Cint, Prodege, and Dynata, whose members are recruited using non-probability sampling methods. The selected sample was invited to participate via email invitation, push notification, or SMS for cell phone users. Respondents were offered cash or cash-equivalent incentives to participate in the survey.

Data Collection and Privacy: Survey responses were collected directly on the Qualtrics platform. Only respondents with a provided link could take the survey, using their computer, laptop, tablet, or mobile phone.

Privacy and security measures were taken to ensure that data was collected in adherence to the European Union's General Data Protection Regulation policies for data privacy and security, as well as the California Consumer Privacy Act (CCPA).

Quality Control: Quality control measures in the sample collection process to disqualify duplicate respondents and survey bots included:

- checking respondents' IP addresses to determine if there are duplicate respondents
- employing an "operating system & Web browser check" to determine if there are any cross-panel duplicates
- using hCaptcha to detect and disqualify survey bots.

Quality control measures within the survey to disqualify dishonest or mischievous respondents, as well as survey bots, included:

- an attention-check question, e.g. Select the word that does not belong. [Tuesday]; [Friday]; [April]; [Wednesday]
- an honesty question, e.g. What have you done in the past week? Select all that apply. [Won a gold medal at the Olympics]; [Watched TV]; [Got a license to operate a Class SSGN submarine]; [Read a book]
- a speed limit, which disqualified respondents who moved through the first quarter of the survey at a pace roughly triple the average reading speed.

Lastly, respondents were removed from the sample who answered less than half the substantive questions, or who engaged in straight-lining.
