Campaign Finance & Government Reform

- STATE OF ALASKA and NATIONAL -

Field Dates:

State of Alaska: July 22 - Aug 3, 2026

National: February 11-26, 2026

Sample Sizes:

State of Alaska: 600

National: 2,509

Confidence Interval:

State of Alaska: +/-6.5%

National: +/- 2.9%

Samples Provided by: Multiple online opt-in panels, including Cint, Dynata and Prodege. Sample collection and quality control was managed by QuantifyAI under the direction of the University of Maryland's Program for Public Consultation.

Note: Rows may not add to 100% due to rounding

[Q13-26 and Q52-64 withheld for future release, Q27-51 previously released]

Here are proposals to reform the financing of political campaigns for Members of Congress and the President. For each one, please say whether you favor or oppose it.

Q1. Passing a new Constitutional amendment that would allow Congress and state legislatures to restrict or prohibit corporations and private political groups (PACs) from spending money to influence elections.

	Favor	Oppose	Ref/DK
National	82%	18%	1%
Republicans	82%	17%	1%

Democrats	85%	14%	1%
Independents	71%	27%	2%
Alaska (statewide)	89%	11%	0%
Republicans	88%	12%	0%
Democrats	93%	7%	0%

Q2. Encouraging small campaign donors by making half of small donations to candidates by small donors refundable in the form of a tax credit.

	Favor	Oppose	Ref/DK
National	67%	32%	1%
Republicans	63%	36%	2%
Democrats	72%	28%	1%
Independents	64%	35%	1%
Alaska (statewide)	80%	19%	2%
Republicans	76%	24%	0%
Democrats	91%	8%	1%

Q3. Continuing to prohibit non-profits that receive tax-deductible donations, such as churches and universities, from endorsing and providing financial support to political candidates.

	Favor	Oppose	Ref/DK
National	79%	20%	1%
Republicans	80%	19%	1%
Democrats	80%	18%	1%
Independents	72%	26%	1%
Alaska (statewide)	73%	27%	0%
Republicans	67%	33%	0%
Democrats	91%	8%	0%

While many forms of campaign-related donations and spending are required to be publicly disclosed, there are donations that can be made anonymously to certain organizations that can support candidates and political causes. Here are some proposals that require greater disclosure of campaign financing.

Q4. Require corporations, unions, and other groups, when spending money on campaign-related activities, to immediately report this to their shareholders and members, to the public, and to the Federal Election Commission.

	Favor	Oppose	Ref/DK
National	83%	16%	1%
Republicans	85%	14%	1%
Democrats	85%	14%	1%
Independents	73%	25%	1%

Alaska (statewide)	85%	14%	1%
Republicans	85%	15%	0%
Democrats	94%	6%	1%

Q5. Require the Federal Election Commission to publicly disclose the names of significant donors paying for TV or radio ads in support of candidates or related to controversial public issues.

	Favor	Oppose	Ref/DK
National	81%	18%	1%
Republicans	80%	19%	1%
Democrats	85%	14%	1%
Independents	74%	24%	2%
Alaska (statewide)	82%	18%	1%
Republicans	79%	20%	1%
Democrats	90%	10%	1%

Q6. Require federal contractors to publicly disclose their donations to groups that spend money on campaign-related activities.

	Favor	Oppose	Ref/DK
National	81%	17%	2%
Republicans	82%	17%	1%
Democrats	83%	15%	2%
Independents	74%	25%	1%
Alaska (statewide)	75%	24%	1%
Republicans	71%	29%	0%
Democrats	93%	6%	1%

Here are proposals to reform elections for Members of Congress. For each, please say whether you favor or oppose.

Q7. Currently, when Congressional districts are redrawn in most states, this is done by state legislatures, which may be dominated by one party. There is a proposal to require that Congressional districts be redrawn instead by a commission of citizens in each state, made up of equal numbers of Republicans, Democrats and independents.

	Favor	Oppose	Ref/DK
National	81%	19%	0%
Republicans	81%	19%	0%
Democrats	83%	17%	0%
Independents	74%	26%	0%
Alaska (statewide)	90%	9%	1%
Republicans	90%	9%	1%
Democrats	96%	3%	1%

Q8. Here is a proposal for how to conduct elections when there are three or more candidates, called “rank choice voting.” Voters not only select their first choice but can also select their second choice. Then, if no candidate gets a majority, the one with the fewest votes is eliminated. Voters who favored the eliminated candidate then have their votes switched to their second choice. The tally is recalculated, and the candidate with a majority of votes wins.

If there are more than three candidates, the process is repeated until a candidate gets a majority.

Do you favor or oppose using ranked choice voting in all federal elections?

	Favor	Oppose	Ref/DK
National	66%	34%	0%
Republicans	64%	36%	0%
Democrats	70%	29%	0%
Independents	60%	40%	1%
Alaska (statewide)	85%	15%	0%
Republicans	79%	20%	1%
Democrats	97%	3%	0%

Q9. Here is another proposal: Limit how many terms a member of the House or Senate may stay in office, by passing a new Constitutional amendment that says House Members are limited to four two-year terms, and Senators are limited to three six-year terms.

	Favor	Oppose	Ref/DK
National	82%	17%	1%
Republicans	85%	15%	1%
Democrats	83%	17%	1%
Independents	76%	24%	1%
Alaska (statewide)	84%	16%	0%
Republicans	80%	20%	0%
Democrats	95%	5%	0%

Proposals have been put forward to prohibit high-level officials in the federal government from trading stocks in individual companies. They would still be allowed to buy or sell shares of funds that include stocks in numerous companies. For each group of federal officials, please say whether you favor or oppose prohibiting them from trading stocks in individual companies.

Q10. Members of Congress

	Favor	Oppose	Ref/DK
National	76%	24%	0%
Republicans	78%	22%	0%
Democrats	75%	25%	0%
Independents	72%	28%	1%

Alaska (statewide)	84%	16%	0%
Republicans	82%	19%	0%
Democrats	94%	5%	1%

Q11. The President, Vice President, and Supreme Court Justices

	Favor	Oppose	Ref/DK
National	71%	28%	1%
Republicans	74%	25%	1%
Democrats	70%	29%	1%
Independents	67%	31%	2%
Alaska (statewide)	81%	19%	0%
Republicans	79%	21%	0%
Democrats	92%	8%	0%

Q12. As you may know, federal judges must comply with a set of ethical standards. However, Supreme Court Justices do not have the same requirement. Do you favor or oppose Supreme Court Justices being required to comply with the same ethical standards that apply to other federal judges?

	Favor	Oppose	Ref/DK
National	85%	15%	1%
Republicans	87%	13%	0%
Democrats	86%	14%	1%
Independents	79%	20%	1%
Alaska (statewide)	83%	17%	0%
Republicans	86%	14%	0%
Democrats	82%	17%	1%

Methodology

Fielding and Sample Size: The surveys were fielded by the Program for Public Consultation (PPC) at the University of Maryland's Civic Innovation Center, with representative non-probability samples obtained from multiple online panels, including Cint, Dynata and Prodege.

National

Field Dates: February 11-26, 2026 Total Sample Size: 2509 Response Rate: 7.6%
Four-fifth Sample Sizes: 1991 to 2020

State of Alaska

Field Dates: July 22 - Aug 3, 2026 Sample Size: 600 Response Rate: 7.8%

Pre-Stratification and Weighting: The samples were pre-stratified and weighted by age, race, ethnicity, gender, educational attainment, household income, and home ownership. Benchmarks were obtained from the Census Bureau's 2024 and 2025 American Community Surveys, as well as the 2024 Current Population Survey's Annual Social and Economic Supplement.

The national sample was also weighted by Census region and partisan affiliation. In the Alaska sample, the distribution of partisan affiliation was within expectations, based on voter registration data for non-leaners and/or Cook's Partisan Voting Index for leaners.

National

Confidence Interval of Four-fifth Samples: +/-2.9% Min Weight: 0.25 Max Weight: 2.51 Mean Weight: 1.0

State of Alaska

Confidence Interval: +/-6.5% Min. Weight: 0.05 Max Weight: 8 Mean Weight: 1.0

Confidence Intervals were calculated using the sample variance of the weights using the following formula:
 $CI = \text{Square root } ((1+\text{variance})/\text{sample size})$

Sample Collection: Sample collection was managed by Quant-E with oversight from PPC. Samples were drawn from multiple large online panels, including Cint, Prodege, and Dynata, whose members are recruited using non-probability sampling methods. The selected sample was invited to participate via email invitation, push notification, or SMS for cell phone users. Respondents were offered cash or cash-equivalent incentives to participate in the survey.

Data Collection and Privacy: Survey responses were collected directly on the Qualtrics platform. Only respondents with a provided link could take the survey, using their computer, laptop, tablet, or mobile phone.

Privacy and security measures were taken to ensure that data was collected in adherence to the European Union's General Data Protection Regulation policies for data privacy and security, as well as the California Consumer Privacy Act (CCPA).

Quality Control: Quality control measures in the sample collection process to disqualify duplicate respondents and survey bots included:

- checking respondents' IP addresses to determine if there are duplicate respondents
- employing an "operating system & Web browser check" to determine if there are any cross-panel duplicates
- using hCaptcha to detect and disqualify survey bots.

Quality control measures within the survey to disqualify dishonest or mischievous respondents, as well as survey bots, included:

- an attention-check question, e.g. Select the word that does not belong. [Tuesday]; [Friday]; [April]; [Wednesday]
- an honesty question, e.g. What have you done in the past week? Select all that apply. [Won a gold medal at the Olympics]; [Watched TV]; [Got a license to operate a Class SSGN submarine]; [Read a book]
- a speed limit, which disqualified respondents who moved through the first quarter of the survey at a pace roughly triple the average reading speed.

Lastly, respondents were removed from the sample who answered less than half the substantive questions, or who engaged in straight-lining.
