SCHOOL OF PUBLIC POLICY
PROGRAM FOR PUBLIC CONSULTATION

America's Role in the World

- STATE OF IOWA, CD1, CD2, CD3, CD4, and NATIONAL -

Field Dates:
State of Iowa, Iowa CD1, Iowa CD2, Iowa CD3, Iowa CD4: July 21 - Aug 3, 2026
National: February 11-26, 2026

Sample Sizes:
State of Iowa: 2000 **Iowa CD1:** 503 **Iowa CD2:** 504 **Iowa CD3:** 502 **Iowa CD4:** 507
National: 2,509

Confidence Interval:
State of Iowa: +/-2.9% **Iowa CD1**:+/-5.6% **Iowa CD2**:+/-6.0% **Iowa CD3**:+/-5.4%
Iowa CD4: +/-6.3% **National:** +/- 2.9%

Samples Provided by: Multiple online opt-in panels, including Cint, Dynata and Prodege. Sample collection and quality control was managed by QuantifyAI under the direction of the University of Maryland's Program for Public Consultation.

Note: Rows may not add to 100% due to rounding

[Q1-12 and Q27-64 previously released]

Here are questions about US policies that deal with international conflict. For each, please select whether you favor or oppose.

Q13. It being a high priority in US foreign policy to uphold the principle of collective security, by contributing to collective military operations and/or using economic sanctions in response to international aggression.

Republicans	78%	22%	0%
Democrats	80%	20%	0%

Q18. Do you favor or oppose a proposal that says the following:

- To use nuclear weapons first in response to a non-nuclear attack, the President would first have to consult Congress, and Congress would have to issue a declaration of war on the country to be attacked with nuclear weapons.
- The President would still have the sole authority to order the use of nuclear weapons in response to a nuclear attack.

	Favor	Oppose	Ref/DK

As you may know, the US provides aid to less developed countries to help them respond to disasters, address hunger and disease, build their economies and develop their democracies.

Q20. What do you think would be an appropriate percentage of the federal budget to go to foreign aid, if any? Please answer in terms of a percentage, in between 0 and 100%. You may answer as a fraction of a percent as well. _____

Republicans	83%	17%	1%

Democrats	94%	6%	0%

Methodology

Fielding and Sample Size: The surveys were fielded by the Program for Public Consultation (PPC) at the University of Maryland's Civic Innovation Center, with representative non-probability samples obtained from multiple online panels, including Cint, Dynata and Prodege.

National
Field Dates: February 11-26, 2026 Total Sample Size: 2509 Response Rate: 7.6%
Four-fifth Sample Sizes: 1991 to 2020

State of Iowa
Field Dates: July 21 - Aug 3, 2026 Sample Size: 2016 Response Rate: 8.0%

Iowa CD1
Field Dates: July 21 - 31, 2026 Sample Size: 503 Response Rate: 8.1%

Iowa CD2
Field Dates: July 21 - Aug 3, 2026 Sample Size: 504 Response Rate: 7.9%

Iowa CD3
Field Dates: July 21 - Aug 1, 2026 Sample Size: 502 Response Rate: 7.3%

Iowa CD4
Field Dates: July 21 - 30, 2026 Sample Size: 507 Response Rate: 8.1%

Pre-Stratification and Weighting: The samples were pre-stratified and weighted by age, race, ethnicity, gender, educational attainment, household income, and home ownership. Benchmarks were obtained from the Census Bureau's 2024 and 2025 American Community Surveys, as well as the 2024 Current Population Survey's Annual Social and Economic Supplement.

The national sample was also weighted by Census region and partisan affiliation. In the Iowa samples, the distribution of partisan affiliation was weighted to be within expectations, based on voter registration data for non-leaners and/or Cook's Partisan Voting Index for leaners.

National
Confidence Interval of Four-fifth Samples: +/-2.9% Min Weight: 0.25 Max Weight: 2.51 Mean Weight: 1.0

State of Iowa
Confidence Interval: +/-2.9% Min. Weight: 0.12 Max Weight: 6 Mean Weight: 1.0

Iowa CD1
Confidence Interval: +/-5.6% Min. Weight: 0.14 Max Weight: 5 Mean Weight: 1.0

Iowa CD2
Confidence Interval: +/-6.0% Min. Weight: 0.12 Max Weight: 6 Mean Weight: 1.0

Iowa CD3
Confidence Interval: +/-5.4% Min. Weight: 0.19 Max Weight: 4.17 Mean Weight: 1.0

Iowa CD4
Confidence Interval: +/-6.3% Min. Weight: 0.14 Max Weight: 6 Mean Weight: 1.0

Confidence Intervals were calculated using the sample variance of the weights using the following formula:
CI = Square root ((1+variance)/sample size)

Sample Collection: Sample collection was managed by Quant-E with oversight from PPC. Samples were drawn from multiple large online panels, including Cint, Prodege, and Dynata, whose members are recruited using non-probability sampling methods. The selected sample was invited to participate via email invitation, push notification, or SMS for cell phone users. Respondents were offered cash or cash-equivalent incentives to participate in the survey.

Data Collection and Privacy: Survey responses were collected directly on the Qualtrics platform. Only respondents with a provided link could take the survey, using their computer, laptop, tablet, or mobile phone.

Privacy and security measures were taken to ensure that data was collected in adherence to the European Union's General Data Protection Regulation policies for data privacy and security, as well as the California Consumer Privacy Act (CCPA).

Quality Control: Quality control measures in the sample collection process to disqualify duplicate respondents and survey bots included:

- checking respondents' IP addresses to determine if there are duplicate respondents
- employing an "operating system & Web browser check" to determine if there are any cross-panel duplicates
- using hCaptcha to detect and disqualify survey bots.

Quality control measures within the survey to disqualify dishonest or mischievous respondents, as well as survey bots, included:

- an attention-check question, e.g. Select the word that does not belong. [Tuesday]; [Friday]; [April]; [Wednesday]
- an honesty question, e.g. What have you done in the past week? Select all that apply. [Won a gold medal at the Olympics]; [Watched TV]; [Got a license to operate a Class SSGN submarine]; [Read a book]
- a speed limit, which disqualified respondents who moved through the first quarter of the survey at a pace roughly triple the average reading speed.

Lastly, respondents were removed from the sample who answered less than half the substantive questions, or who engaged in straight-lining.
