

SCHOOL OF PUBLIC POLICY

PROGRAM FOR PUBLIC CONSULTATION

Criminal Justice: Police, Prison and Criminal Records

- STATE OF MICHIGAN, CD4, CD7, CD8, CD10 and NATIONAL -

Field Dates:

Michigan CD4, Michigan CD7, Michigan CD8, Michigan CD10: July 21 - Aug 3, 2026

National: February 11-26, 2026

Sample Sizes:

State of Michigan: 600 **Michigan CD4:** 509 **Michigan CD7:** 505 **Michigan CD8:** 516

Michigan CD10: 499 **National:** 2,509

Confidence Interval:

State of Michigan: +/-5.2% **Michigan CD4:** +/-6.0% **Michigan CD7:** +/-6.1% **Michigan CD8:** +/-6.6%

Michigan CD10: +/-6.2% **National:** +/- 2.9%

Samples Provided by: Multiple online opt-in panels, including Cint, Dynata and Prodege. Sample collection and quality control was managed by QuantifyAI under the direction of the University of Maryland's Program for Public Consultation.

Note: Rows may not add to 100% due to rounding

[Q13-26 withheld for future release, Q1-12 and Q27-51 previously released]

[Police Reform]

We are now going to ask whether you favor some proposals in Congress related to criminal justice.

Here are some proposals in Congress to reform policing:

Q52. Require police departments to make it a duty for officers to intervene when they perceive another officer is using excessive force. Also, provide officers with training for when and how to intervene.

	Favor	Oppose	Ref/DK
National	88%	11%	0%
Republicans	88%	12%	0%
Democrats	90%	9%	0%

[Sentencing]

Here are proposals for giving federal judges more discretion in sentencing.

Q57. Currently, when someone is convicted of selling or producing a substantial amount of drugs, a judge is required to impose a minimum sentence of 10 years. Do you favor or oppose lowering the mandatory minimum sentence to 5 years and letting the judge decide if it should be more?

	Favor	Oppose	Ref/DK

Republicans	64%	35%	1%
Democrats	76%	22%	2%

Here are proposals to reform the treatment of people in prison:

First, here are proposals related to the use of solitary confinement which means putting a prisoner in a cell by themselves for 22-24 hours a day. People are put in solitary confinement for the following purposes:

- as punishment for minor or serious violations of prison rules
- for the prisoner's safety (protection from other inmates, or they are suicidal)

Currently, there are no federal laws that regulate how many days a person can be kept in solitary confinement, or for what purposes.

Proposals have been put forward to limit the use of solitary confinement.

Q59. Which do you favor:

1. Prohibit any use of solitary confinement
2. Limit the use of solitary confinement only when it is necessary for the prisoner's safety, and to no more than 15 days in a row or 20 days in a two-month period
3. Limit the use of solitary confinement as punishment for serious violations only or for their own safety, and to no more than 30 days in a row or 40 days in a two-month period
4. Do not limit the use of solitary confinement

	Prohibit solitary confinement	Limit: only for prisoner's safety, no more than 15 days in a row	Limit: only as punishment for serious violations or prisoner's safety, no more than 30 days in a row	TOTAL LIMIT USE	Do not limit	Ref /DK

[Criminal Records]

As you may know, there are negative consequences to having a criminal record that go beyond serving time in prison, including difficulty getting a job, a license to practice a trade, and housing. In many states, a person can be disqualified – have their application rejected, or get fired or evicted – because of their criminal record.

Proposals have been put forward to limit these negative consequences of having a criminal record.

Do you favor or oppose prohibiting employers and licensing boards from disqualifying a person on the basis that they were:

Q60. arrested but not charged, or charged but not convicted

Methodology

Fielding and Sample Size: The surveys were fielded by the Program for Public Consultation (PPC) at the University of Maryland’s Civic Innovation Center, with representative non-probability samples obtained from multiple online panels, including Cint, Dynata and Prodege.

National

Field Dates: February 11-26, 2026	Total Sample Size: 2509	Response Rate: 7.6%
Four-fifth Sample Sizes: 1991 to 2020		

State of Michigan

Field Dates: July 21 - Aug 3, 2026	Sample Size: 600	Response Rate: 8.7%
------------------------------------	------------------	---------------------

Michigan CD4

Field Dates: July 21 - Aug 3, 2026	Sample Size: 509	Response Rate: 7.2%
------------------------------------	------------------	---------------------

Michigan CD7

Field Dates: July 21 - Aug 3, 2026	Sample Size: 505	Response Rate: 8.9%
------------------------------------	------------------	---------------------

Michigan CD8

Field Dates: July 21 - Aug 3, 2026	Sample Size: 516	Response Rate: 8.6%
------------------------------------	------------------	---------------------

Michigan CD10

Field Dates: July 21 - Aug 3, 2026	Sample Size: 499	Response Rate: 7.5%
------------------------------------	------------------	---------------------

Pre-Stratification and Weighting: The samples were pre-stratified and weighted by age, race, ethnicity, gender, educational attainment, household income, and home ownership. Benchmarks were obtained from the Census Bureau’s 2024 and 2025 American Community Surveys, as well as the 2024 Current Population Survey’s Annual Social and Economic Supplement.

The national sample was also weighted by Census region and partisan affiliation. In the Michigan samples, the distribution of partisan affiliation was weighted to be within expectations, based on voter registration data for non-leaners and/or Cook’s Partisan Voting Index for leaners.

National

Confidence Interval of Four-fifth Samples: +/-2.9%	Min Weight: 0.25	Max Weight: 2.51	Mean Weight: 1.0
--	------------------	------------------	------------------

State of Michigan

Confidence Interval: +/-5.2%	Min. Weight: 0.05	Max Weight: 4	Mean Weight: 1.0
------------------------------	-------------------	---------------	------------------

Michigan CD4

Confidence Interval: +/-6.0%	Min. Weight: 0.11	Max Weight: 6	Mean Weight: 1.0
------------------------------	-------------------	---------------	------------------

Michigan CD7

Confidence Interval: +/-6.1%

Min. Weight: 0.1

Max Weight: 6 Mean Weight: 1.0

Michigan CD8

Confidence Interval: +/-6.6%

Min. Weight: 0.12

Max Weight: 6 Mean Weight: 1.0

Michigan CD10

Confidence Interval: +/-6.2%

Min. Weight: 0.1

Max Weight: 6 Mean Weight: 1.0

Confidence Intervals were calculated using the sample variance of the weights using the following formula:

$CI = \text{Square root } ((1+\text{variance})/\text{sample size})$

Sample Collection: Sample collection was managed by Quant-E with oversight from PPC. Samples were drawn from multiple large online panels, including Cint, Prodege, and Dynata, whose members are recruited using non-probability sampling methods. The selected sample was invited to participate via email invitation, push notification, or SMS for cell phone users. Respondents were offered cash or cash-equivalent incentives to participate in the survey.

Data Collection and Privacy: Survey responses were collected directly on the Qualtrics platform. Only respondents with a provided link could take the survey, using their computer, laptop, tablet, or mobile phone.

Privacy and security measures were taken to ensure that data was collected in adherence to the European Union's General Data Protection Regulation policies for data privacy and security, as well as the California Consumer Privacy Act (CCPA).

Quality Control: Quality control measures in the sample collection process to disqualify duplicate respondents and survey bots included:

- checking respondents' IP addresses to determine if there are duplicate respondents
- employing an "operating system & Web browser check" to determine if there are any cross-panel duplicates
- using hCaptcha to detect and disqualify survey bots.

Quality control measures within the survey to disqualify dishonest or mischievous respondents, as well as survey bots, included:

- an attention-check question, e.g. Select the word that does not belong. [Tuesday]; [Friday]; [April]; [Wednesday]
- an honesty question, e.g. What have you done in the past week? Select all that apply. [Won a gold medal at the Olympics]; [Watched TV]; [Got a license to operate a Class SSGN submarine]; [Read a book]
- a speed limit, which disqualified respondents who moved through the first quarter of the survey at a pace roughly triple the average reading speed.

Lastly, respondents were removed from the sample who answered less than half the substantive questions, or who engaged in straight-lining.
